Virtual Race for the Gifted – Mensa Spain

1: THE RACE

Virtual Race for the Gifted, promoted, and organized by Mensa Spain, will take place virtually between the 14th and the 31st of March 2023, both days included.

A Virtual Race is a way to share the running experience and to compete in a safe way that also allows participation without a previous gathering in a single place.

All runners will be able to choose their own route to run and to complete the chosen distance within the term given by the organization.

2: THE TERM

The term to register the chosen distance (10 km or 5 km) will go from 00:00 h (Madrid UTC/GMT +1) on March 14th to 23:59 h (Madrid UTC/GMT +1) on March 31st, 2023.

No time limit is established for the completion of the distance.

3: ROUTE AND DISTANCE

Each runner will be able to choose the place and route to complete the chosen distance.

All runners will have to complete the chosen distance in order for the record to be validated.

The distance options are 5 km and 10 km.

The route can be done running or walking.

Every runner will have to register his or her time and distance through the Rockthsport App at the race event, so that it can be received by the organisation.

When signing up for the race, every runner will receive an event code to introduce in the app (RTS Virtual) to be able to register the time and route.

The organization is not responsible for any data loss due to app or device failure or misuse.

4: SIGN UP

Sign up will be available from February 27th, 00:00h (Madrid UTC/GMT +1) to March 13th, 23:55h (Madrid UTC/GMT +1), through the Rocksport platform:

<https://web.rockthesport.com/es/es/login>

No changes or cancellations are allowed.

5: PRICE AND TERMS

It is a charity event with a symbolic price of 4 euros. One small part will cover the platform expenses, plus 29 cents for web management.

All the resulting benefit will be for Áurega, an association in Narón (A Coruña, Spain), in the promotion of the gifted, especially for activities with gifted children. This association will publish all the activities done with the given amount.

6: RANKING

The platform uses a ranking system that the runners can check. A final ranking will be published in the app and will be used to determine the winners of all four categories and the offered prizes.
